

MOTmatch

Keep Your Customers, Grow Your Business

The booking platform built for independent UK garages who want to stay in
control

The Problem Facing UK Garages

Many independent garages are struggling with booking platforms that work against their interests, undermining their growth and customer relationships.

Trapped in iFrames

Hive and Motasoft make your garage invisible to Google searches, hiding you from potential customers in your local area.

Lost Customer Ownership

Aggregators take your valuable customer data and relationships, preventing you from building direct connections with your clients.

Payment Control Issues

They hold your money and slow your cash flow, creating unnecessary delays in receiving payments for your services.

Zero SEO Benefits

Your garage doesn't rank locally on Google, making it harder for nearby customers to find and choose your business.

The MOTmatch Solution

We've built MOTmatch specifically for independent UK garages who want to maintain control whilst growing their business effectively.

Branded Microsites

Your brand takes centre stage, not ours. Professional websites that reflect your garage's unique identity and values.

Direct Payments via Stripe

Money goes straight to your account with no delays. Improve your cash flow and maintain financial control.

Customer Ownership

Your customers, your data, your loyalty programmes. Build lasting relationships without intermediaries.

Smart Reminders

Automated MOT recalls, text messages, and review requests keep customers engaged without extra effort from you.

Built for Local Success

Rank Locally on Google

Our SEO-friendly websites help your garage appear when local customers search for MOT tests, servicing, and repairs in your area.

Automated Customer Engagement

Smart tools work behind the scenes to keep customers coming back, sending timely reminders and requests for reviews without any manual effort.

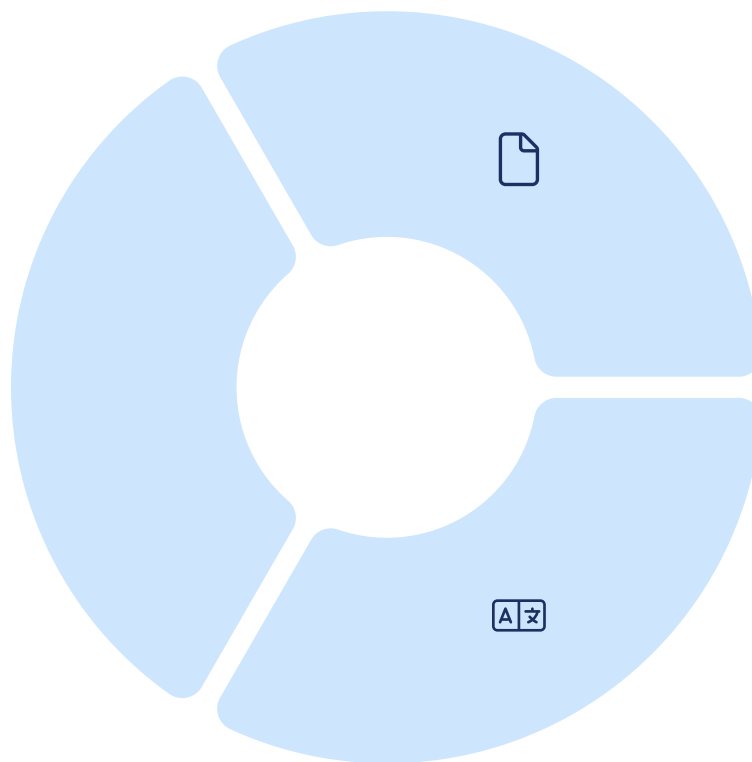

Focus on what you do best – fixing cars – whilst we handle the digital marketing and customer retention automatically.

Why MOTmatch is Different

We understand that independence matters. That's why we've designed MOTmatch to support your business goals, not replace them.

Your Brand, Your Way

Fully customised microsites that showcase your garage's personality, services, and local community connections.

Complete Independence

No lock-in contracts or restrictive terms. You maintain full control over your business decisions and customer relationships.

Local Focus

Purpose-built for UK garages and their communities, understanding the unique needs of independent automotive businesses.

How We Compare

See the difference MOTmatch makes compared to other booking platforms currently available to UK garages.

Feature	MOTmatch ✓	Hive / BookMyGarage ✗	WhoCanFixMyCar ✗
Customer Ownership	Yours	Theirs	Theirs
Direct Payments	Instant	Held	Controlled
SEO Benefits	Full	None	Minimal
Your Brand	Featured	Hidden	Secondary

The choice is clear: MOTmatch puts your garage first, ensuring you maintain control whilst growing your customer base effectively.
